

“Birthright – Elemental Magic”

Rated: 3 out of 5 Cups of Coffee

Arasa is looking for the Womb of Tarden and goes to a map trader who supposedly has the map she needs. While negotiating with the trader, she meets Eirik. He is a mage from the Snow Leaper clan who helps her by keeping her from being swindled. Arasa is a twin and needs answers to a very important question.

While they are together he falls in love with Arasa. Danger lurking around the corner could possibly prevent them from being together forever.

This is an interesting story with romance and danger intertwined. Ms. Johnson does a wonderful job in holding her audience captive.

All four stories are full of romantic fantasy and are very entertaining. They were most enjoyable and not to be missed.
