

“Enchanted Season – Gifts of the Magi”

Rated 4 out of 5 blue ribbons

It seems all hope is lost this holiday season for Rachel and her fiancé, Steve. With a snow storm blowing in, the guests for the Bethel Inn are canceling just as fast as the snow falls. Rachel and Steven need the guests, and their money, to make their mortgage payment. Hope seems lost until three strangers show up at the Inn, asking for warmth and food, and though Rachel and Steve do not realize it, bringing with them the magic of the holiday season.

Jean Johnson infuses a new spin on this classic story. There is a bit of romance, some magic, and a change of heart that really touches on the true power of the Christmas season. Steve and Rachel definitely have more to be thankful for than they ever realized.

AN ENCHANTED SEASON is filled with laughter, eclectic situations, and the kind of passion that lasts long after the holiday season has ended.
