

Review by: [Robin Snodgrass](#)

Rated 5 out of 5 blue ribbons

The Seer Draganna foretold of the Eight Sons of Destiny several centuries ago in the Song of Destiny. Interpretations of the Song have the people of Katan believing that a disaster will befall the world because of these brothers finding their true loves. Therefore, the eight brothers are exiled to the isle of Nightfall in an attempt to avoid this potential disaster. Women are strictly forbidden on Nightfall Island. The first brother, Saber, has already met and embraced his destiny with the woman he loves. Second born Wolfer happily accepted his fate with the woman of his dreams. The next brother to face his fate is Dominor, the Master, third born of the brothers.

Dominator has been kidnapped from the Isle of Nightfall and taken captive by slavers. He is sold to a beautiful sorceress who promises to grant him his freedom in exchange for his assistance in a small matter. However, the truth is Lady Serina has big plans for Dominor. She needs a very powerful mage to recreate a magical Tantric ritual to reverse a botched spell cast centuries ago. The original spell caused a war that has been raging between two countries for decades. Dominor has no idea that Serina is keeping an enormous secret from him regarding the outcome of the ritual. Will he ever trust Serina when her deceit is revealed? Can the ritual actually alleviate the problems that caused the war in the first place? Is it even possible for these two headstrong people to find their happily ever after?

THE MASTER is a captivating love story centered on two powerful individuals who are used to being in control of any situation. Dominor and Serina are strong, well-developed characters with interesting personalities and abilities. The sparks created by their interaction literally leap from the pages and set your imagination ablaze. I admit that Dominor fascinated me in the two previous books in this delightful series, THE SWORD, and THE WOLF. In THE MASTER, his charisma and allure is obvious from the very beginning. Serina is every bit his equal in character and ability. Their scenes together are both charming and amusing to read. Their absorbing interaction helps to propel the story to an emotionally fulfilling conclusion.

Jean Johnson has captured my heart with these enthralling stories. THE MASTER is an action-packed addition to the incredible and fascinating SONS OF DESTINY series. I am eagerly looking forward to reading more of Jean Johnson's books. She is an extremely talented writer with a phenomenal story-telling ability. THE MASTER is unquestionably keeper shelf material; so run, don't walk, to your local bookstore and pick up your copy of this spellbinding tale!
