**Reviewer Comments:** Jean Johnson gives readers the second in her Sons of Destiny series with her latest paranormal fantasy *The Wolf*. Readers who found the first novel compelling, will not be disappointed, as Johnson continues to follow the story of these Mage sons exiled to Nightfall Isle. Johnson has created a world filled with beauty, magic and fantasy that readers are sure to enjoy filled with possibilities.

Shapeshifter and second cursed brother Wolfer has made it through his time in exile by finding solace in the small braid of hair around his wrist. Given to him by his childhood friend, Alys, this braid has always soothed his spirit and brought strength when times seem tough. He often dreams of the day that he will see her again. When she appears on the Isle, he cannot help but meet his destiny and fall in love.

Since the death of her parents, Alys has spent her time living with her uncle and being forced to do his bidding. Caught in a trap of powerful magic, Alys has been frightened for her life and the lives of the brothers as she has seen her uncle do evil and illegal magic to get rid of the brothers. Now, thanks to the help of her friend, Morganen, she has found a way to escape her uncle. Her only hope is to get to Nightfall Isle and ask the brothers for their help.
